

## Plant and Service Guide

MNL is proud to provide quality native seed, plants and shrubs to a wide range of customers. We grow and supply well over 100 species of wetland, woodland, and prairie plants and seed which are available throughout the season; as well as dozens of tree and shrub species. MNL is also a full service ecological restoration company willing to assist with design, installation or management of your planting project.

## Terms and Conditions

Prices F.O.B. Foley MN, Sales Tax not included.

Payment method check or cash.

Prices subject to change w/o notice.

Plants are sold in flats of 36 (full flats only) Mixed trays are available however one six pack (6 plants) of each species is required.

Pickup by appointment only.

**Please call for shipping and delivery rates.**

## Plant Size & Quality

Minnesota Native Landscapes provides large healthy plants that will excel quickly on your site. Our plants are grown in trays Containing 36 plants. Each plant is grown in a pot over 2" wide and deep. The size of the plants will vary based on species and season. However roots will extend to all edges of the pot and plants will be a minimum of 3" tall, unless they are rosettes in which case they will cover at least half the surface of the pot. These are the minimum standards. The vast majority of the plants will be larger.

Minnesota Native Landscapes, Inc. is a full service ecological restoration company specializing the installation, management and production of native seeds and plants.

### Installation Services:

- Design & consulting
- Site prep work
- Seeding & planting
- Storm water Management
- Erosion control
- Bioengineering

### Land Management Services:

- Consulting & planning
- Prescribed burning
- Cutting & mowing
- Herbicide applications
- Hand weeding
- Invasive woody species removal

### Nursery:

- Native prairie, wetland and woodland plants
- Native prairie, wetland and woodland seed
- Custom growing of unique genotypes
- Prairie & Wetland Sod
